

PRESS RELEASE

CodeFutures Continues Rapid Sales Growth in First Quarter 2005

[Denver, CO, April 15, 2005] CodeFutures, the Java code generation tool vendor, today announced results for the first quarter of 2005, confirming the recent increasing momentum in sales. CodeFutures had its best quarter to date, with over 50% quarterly sales growth and more than 10 times more Q12004 sales.

CodeFutures continued to add high profile customers in Q1, such as Kraft Foods, Inc. CodeFutures has also made progress in new markets, such as signing Technology Reply in Italy. Now government sector customers include the Dept. of National Defence - Canadian Forces and the Government of Singapore's Centre for Strategic Infocomm Technology.

New information technology consultancies using FireStorm/DAO include BT Applied Technologies and ENSCO, Inc.

"What's particularly good about CodeFutures sales is that February 2005 was the best month on record. We hope that we can continue to avoid the traditional software industry sales cycle with most sales are made in the last few weeks of the quarter." says PJ Murray, CEO, CodeFutures Software.

About CodeFutures Software

CodeFutures is the leading supplier of Java software development products for advanced data persistence. The benefits provided by CodeFutures' approach are higher developer productivity, better software quality, and lower maintenance costs. CodeFutures' first product, the award-winning FireStorm/DAO, makes software developers more productive by generating the Java code for accessing relational databases.

CodeFutures' code generation approach provides faster and cheaper application development, higher quality applications, more predictable and consistent results, faster software product development cycle times, faster time to market for commercial application development, reduced project costs, and reduced project risks. CodeFutures approach ensures that the focus of software developers is solving business problems.

CodeFutures' products are used by corporate Java software programmers in sectors such as television (BBC Technology, Turner Broadcasting), finance (Lehman Brothers, JP Morgan), military systems (BAE, Lockheed Martin), government (Missouri Lottery, Port of Barcelona), IT consulting (Siemens Business Systems, LogicaCMG, BearingPoint, SDS, IBM), retail (MetCash, Ahold USA), high technology (EMC, Macromedia), and industry (Suzuki, AREVA).
